- NO-FLAT FRONT TYRES
- STRIPING KIT

PROUD TO BE AMERICAN MADE

BAD BOY
2 YEAR / UNLIMITED HOUR
WARRANTY

The Revolt Stand-On Zero-Turn Mower is made in America at our Batesville, Arkansas headquarters. And this Bad Boy is engineered for improved performance and usability in every way. It sports a shorter frame and curved I-Beam front fork support, which offers greater visibility, plus larger rear tires and no-flat front tyres for more stability and traction.

The compact design can get you into even tighter spaces, thanks to smaller 36" or 48" deck cutting widths. Plus Revolt boasts a lower centre of gravity, making it one of the most maneuverable and balanced stand-on mowers you can buy. It even comes with a striping kit.

INNOVATIVE COMFORT

Who says stand-on mowers can't be comfortable? Revolt starts with a patented, adjustable rubber suspension riding platform, which absorbs vibrations normally passed along to the rider's knees and joints. Then we add a soft, ergonomic thigh pad that accommodates operators of all heights. This combination results in less fatigue and provides all day mowing comfort.

The thigh pad also flips up, giving you easy access to the battery, control arms and hydro tanks. Revolt also features a quick-access panel so you can reach the deck and drive belts with ease. Only Bad Boy could make routine maintenance this comfortable.

BUILT TOUGH TO LAST LONG

If strength and durability are what you're after, step up to the Revolt Stand-On Zero-Turn Mower. A heavy-gauge, all-steel, all-welded and fabricated 38mm x 76mm frame rail provides the backbone for years of durable service. Plus it comes with a replaceable front end to absorb impact. Revolt features 9.5mm steel front forks and 82.55mm trail for smooth directional changes.

Even the deck is strong. It's the heaviest deck in its class. It's 7-gauge steel with reinforced 9.5mm sides and a deeper 140mm shell for maximum discharge, airflow and cut quality. Patented Dual Deck Support Isolators, paired with deck wear pads, minimise damage from any side impact. That's strength that can stand up to anything.

36" DECK

ENGINE
Kawasaki FX691 726cc 22 hp

TRANSMISSION
Dual Hydro Gear 3100

CUTTING WIDTH
36 inch/914.4mm
