AMERICAN MADE QUALITY.

BAD BOY MOWERS

The Bad Boy Mowers story reflects the American dream.

Started in a garage, Bad Boy had a revolutionary idea: Build a better zero-turn mower, at a better price, delivering professional grade zero-turn mowers for everyone.

Bad Boy quickly became the fastest-growing zero-turn mower in America, a fearless category leader breaking the rules of what's expected...

BATESVILLE, ARKANSAS | 2025 USA HQ SNAPSHOT

- 1,100 EMPLOYEES IN 1.25 MILLION SQFT.
- AVERAGED 476 MOWERS PER DAY
- 25,000 TONNES OF ROLLED STEEL
- PAINT DEPARTMENT OVER 70,000 SQFT.
- 78,600 SQFT. OF ASSEMBLY
- 60,000 SQFT. PARTS DEPARTMENT

BACKED BY WARRANTY

Bad Boy Zero-Turn Mowers are known for their durability and performance, backed by a comprehensive warranty that provides peace of mind to customers.

All Bad Boy Mowers are backed by a 24-month warranty, or until the maximum operating hours for the specific model are reached - whichever comes first:

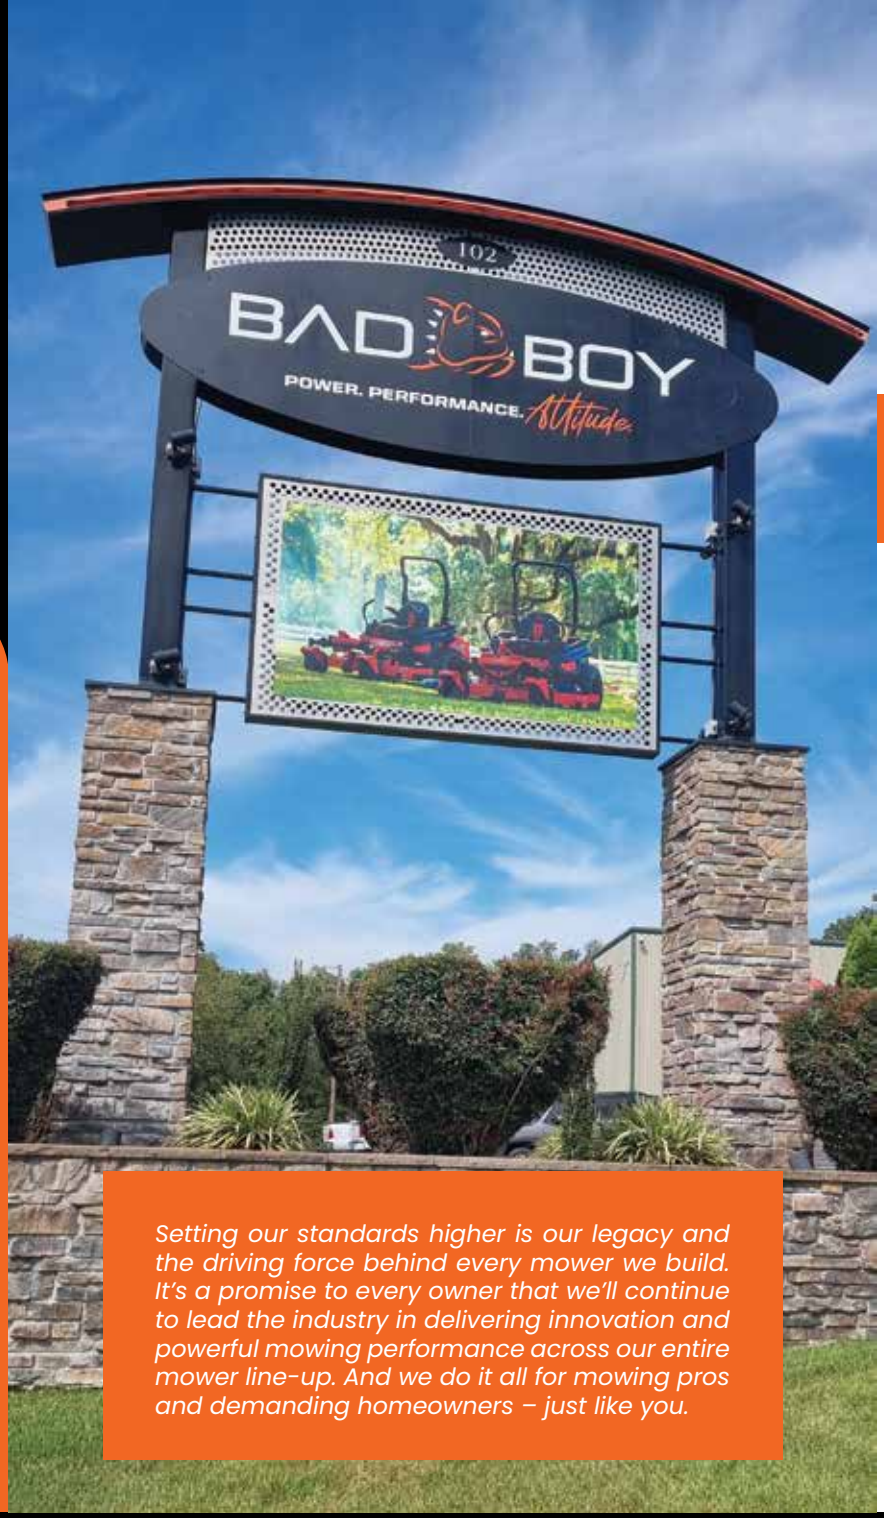
LEADING THE WAY FORWARD

Bad Boy is driven to make every mower even better than the last, developing innovations like Bad Boy's first-of-its kind 3-link suspension. Our R&D experts are hard at work creating the next generation of mowers, pushing the tech, features, comfort, engineering and performance of even further.

Our reputation rests on our all-steel "heavier-duty than they have to be" cut and welded rails. And before any mower leaves our plant, we give it a spin for quality first with our 112-point factory inspection.

It takes longer to build a mower like ours than to stamp one out, but it's the only way to guarantee that we won't just out-mow the competition, we'll outlast it as well.

Every Bad Boy commercial and residential zero-turn mower is made in the USA at our headquarters in Batesville, Arkansas. We use American steel and the highest quality materials to build the strongest, most powerful, most comfortable and best performing zero-turn mowers on the planet.



Setting our standards higher is our legacy and the driving force behind every mower we build. It's a promise to every owner that we'll continue to lead the industry in delivering innovation and powerful mowing performance across our entire mower line-up. And we do it all for mowing pros and demanding homeowners – just like you.

LOVE A BAD BOY?

WE WANT TO HEAR FROM YOU!

Nothing makes us prouder than seeing our Bad Boy family out there getting it done, day in and day out. Want to be featured on our socials and website? Share your story, a snap of your mower in action, and a few words about why you love it – you might just be our next spotlight!"

Check out these awesome shots from Rogue owner Daniel - plus his experience in his own words!

"I really do love this mower. I spent two years researching and watching countless YouTube videos on mowers to decide what to upgrade to and there is honestly nothing that even comes close.

It's genuine value, no one makes mowers this solid and with this sort of running gear. Even at an extra five to ten thousand dollars the mowers don't meet these specs. It's American made, built tough and it works.

It's cut our mowing from 8 hrs to 3.5. Best yard decision we have made. Cheers guys, we love the BAD BOY!"

- DANIEL FISHER, NSW (ROGUE 72")

JANET'S EXPERIENCE

I can honestly say the Bad Boy Rambler is an absolute game-changer! This machine is a powerhouse – incredibly efficient, super fuel-friendly, and the comfort is top-notch, even after two hours of non-stop mowing. For someone who is over 70, I've now mastered spinning on the spot and zipping around in reverse like a pro. It's built tough, a breeze to clean, and maintenance is so easy. I couldn't be more impressed – this mower is an absolute legend!

FABRICATED DECK

Most mowers in this price range use flimsy, bolted steel. The MZ Magnum, however, is built with the same professional quality as our commercial mowers.

TAKE A SEAT

We never compromise on comfort. The cushioned seat adjusts front to back, and the steering is tighter and smoother with our steering dampening system for better response and maneuverability.

GET DIALED IN

Lift the deck with the foot pedal and set the perfect height. The Deck Dial, electric blade start, throttle, and engine start are all conveniently located at your fingertips.

EASY TO HANDLE AND EVEN EASIER TO OWN

BAD BOY MOWERS

REVOLT SD

MOW UP TO 3 ACRES

RESIDENTIAL

UNBELIEVABLY SMOOTH

The Revolt SD is built for comfort, control, and a smooth ride. Its patented full-suspension operator platform reduces fatigue, while the inset I-Beam front rail, 9.5mm steel forks, and 82.55mm trail deliver smooth, easy handling.

JUST THE RIGHT SIZE

The Revolt SD is available in 34″ and 42″ deck sizes that fit through a gate with no problems. It's perfect for tight fits and a cleaner cut, and the smaller sizes make it even easier to store at your home.

COMFORT YOU CAN STAND BEHIND

The full suspension operator platform gives you a smoother ride with less fatigue and maximum comfort. It comes with a Quick Remove Operator Pad offers the support you need while still maintaining easy access for maintenance and cleaning.

STANDARD FEATURES

- DUAL HYDRO-GEAR® 2800 PERFORMANCE DRIVE SYSTEMS
- 18.93L FUEL TANK
- PATENTED SUSPENSION PLATFORM
- 7-GAUGE/4.55MM ALL STEEL, FORMED AND WELDED DECK
- 9.5MM STEEL FRONT FORKS & 89MM TRAIL FOR SMOOTH DIRECTIONAL CHANGE
- QUICK REMOVER OPERATOR PAD
- PEER, MAINTENANCE-FREE SPINDLES
- SIDE MOUNT DECK LIFT ADJUSTMENT
- REAPER TYRES

SEE PAGE 27 FOR MORE DETAILS

SAM'S EXPERIENCE

"I have had the Bad Boy Revolt SD for around six months now and it has been great. The 34 inch deck is great to fit in small places and around trees. I had a ride-on mower before as was a pain hopping off the seat to pick up the bloody kids footy or dog toys. The stand-up mower is so fast and efficient which gives me more time to drink beer!"

- SAM, QLD

STRENGTH THAT CAN STAND UP TO ANYTHING

BAD BOY
2 YEAR / UNLIMITED HOUR
WARRANTY

RIDE WITH EASE

The Revolt's shorter frame and curved I-Beam front fork give you a lower center of gravity for maximum maneuverability and visibility. No other stand-on mower can compete with this unbelievably smooth ride.

CONTROL IS IN YOUR HANDS

The one-touch hand operated height of cut control makes on-the-fly adjustments easy. You can quickly switch between the position speeds for smoother operation in the tightest of spaces.

DON'T FEAR THE REAPER

The Reaper® tread pattern on the rear tyres provides better hillside traction and stability. It's a legendary tyre that gives you the edge you need to get the job done.

STAND-ON VS SIT DOWN?

If you've ever wondered what the difference is, here's why some folks go for a stand-on:

Easy to hop on and off for gates or clearing debris

Better visibility from standing, making tight manoeuvring in small areas easy

Squeeze through narrow gates no worries

Compact design saves space on the trailer

Suspension platform absorbs the bumps instead of your back

It's not about better or worse - just what suits your mowing style.

SEE PAGE 28 FOR MORE DETAILS

DANNY'S EXPERIENCE

"I looked at others, but the Rebel was the standout. The difference in the steel was next level - I have never been on a machine so strong. The power is like over and beyond - it goes nearly like 20km per/h which is ridiculous! The turning circle is outrageous, almost too good - you can get in and around every tree. The handle driving is fantastic. The visual area is great; you can see it all from the seat. The deck lift is very simple but awesome - you can chop and change without having to get off. The ROPS can be put up or down - I can get it onto my truck easily. With size 14 boots, comfort is everything and was very important when making my decision; it feels spacious, and the seat belt is reassuring and a bonus! All round it's a great machine, I wish I had bought one sooner!

ROB'S EXPERIENCE

"I've been running a Renegade at home for a couple of months now. I mowed a couple of acres of paddock that was about 2½ feet high, and it handled it with ease and comfort. The dry grass was cut cleanly, and it sprayed the clippings well away, leaving a great finish on the first pass. I really like how the front floor lifts up, making it easy to clean the deck and grease. It's a very solid, well-finished mower with heaps of power to get the job done."

REAR DISCHARGE

Rear discharge zero-turn mowers offer precise, controlled mowing - perfect for landscaped or tight spaces. They deliver clean clipping flow, keeping debris off sidewalks, flower beds, and surrounding areas.

PATENTED 3-LINK TRAILING ARM SUSPENSION SYSTEM

The EZ-Ride® GEN 2 Suspension delivers a smoother ride, better traction, and improved hillside stability - now paired with our patented independent front suspension for the smoothest ride yet.

NO-FLAT FRONT TYRES

Our airless front tyres never deflate due to puncture, cuts or curb crawl. This helps cut down on maintenance and downtime for repairs or replacement tyres, keeping you mowing longer.

WHY REAR DISCHARGE?

REDUCED HAZARDS
The main advantage is safety–rear discharge directs clippings and debris out the back, preventing rocks or objects from being thrown towards people, cars or windows.

CLEANER FINISH
Reduces dust and dirt as well as keeping clippings away from flower beds, driveways and decking.

EASE AROUND OBSTACLES
Rear discharge decks let you mow right up against fences, walls and garden beds from any direction therefore making mowing quicker, neater and more precise.

Ideal for: Local Government incl. Councils, Contractors, Schools, Parks and Vineyards/Orchards and the average Joe too!

STANDARD FEATURES

- HYDRO-GEAR® 16CC PUMP; PARKER® 18CI WHEEL MOTORS
- 49.21L FUEL TANK
- PATENTED 3-LINK REAR TRAILING ARM SUSPENSION
- PATENTED FRONT INDEPENDENT SUSPENSION
- PREMIUM ADJUSTABLE SUSPENSION SEAT
- HEAVY-DUTY CAST I-BEAM FRONT RAILS
- SLOPED 3-GAUGE/5.83MM FABRICATED DECK WITH 9.5MM REINFORCED EDGES
- PEER, CAST IRON MAINTENANCE-FREE SPINDLES
- HEAVY DUTY CAST IRON FRONT FORKS
- STANDARD REAR MICHELIN TWEEL TYRES
- REAR DISCHARGE MOWER DECK

WHY ONE CONTRACTOR SWEARS BY BAD BOY: COLIN DAWSON ON STRENGTH, RELIABILITY AND ZERO DOWNTIME.

When you've spent more than 40 years in the mowing game, you get to know what works and what doesn't. Few people in Australia understand commercial mowing like Colin Dawson, owner of Wanday QLD Pty Ltd in Brisbane.

His company manages huge mowing contracts for councils and government agencies, maintaining large parks such as Brisbane city. On a typical fortnight they mow around 2.5–3 million square metres, and when required, can ramp that up to 6–8 million. As Colin puts it simply: ***"we cut grass!"***

That kind of workload quickly exposes weaknesses in any mower. Colin has run just about every brand on the market, with more than 50 machines in his fleet, but nothing has measured up to his Bad Boy 61" Rogues. He's been so impressed, he bought two.

Each Rogue clocks 35–40 hours a week across some of Brisbane's toughest mowing environments – from flat manicured parkland to flood-prone land and wet grass areas. Transported by trucks and trailers from site to site, they're constantly pushed to their limits.

"Other machines I've owned all seemed to have the same problems – weaker spindles, jocky wheel assemblies and belts have been a bit of a fault." After more than 500 hours of use over the 6 months of ownership, the Rogues have only needed basic wear-and-tear parts – a huge contrast to the breakdowns he has experienced with other brands.

The engine has also proven rock-solid, something Colin credits to regular servicing – a crucial factor under heavy use. On reliability, he confidently says: ***"compared to a lot of machines that I've owned over the years, these would have to stand up as probably number one at the moment."***

And the efficiency doesn't stop there. Having owned other mowers without EFI, Colin has seen a huge gain with the Rogues: ***"The fuel economy has been brilliant with the EFI on it. I have other mowers without that on it and it's probably 20% or more in fuel usage per day."*** That difference is huge when you're running a large fleet every day.

BAD BOY ROGUE

POWER THAT GOES FURTHER

It's not just reliability that impresses Colin – it's the sheer strength of the Rogues. With powerful engines and a deck design built to handle volume, they take on heavy, overgrown grass without breaking a sweat.

"The power is more than you need – and that's a good thing," he says. ***"It means you're not running the machine at its limit all the time. That extra strength is why they last so much longer."***

THE OPERATORS' FIRST CHOICE

As both manager and mechanic, Colin keeps a close eye on every mower in his fleet. But it's his operators who put the Rogues through their paces daily.

Corey and Nathan on their machines of choice

"I've got two operators who drive the mowers, and I have three other makes for them to pick from, but every time you go out the Bad Boys are going into the truck. They are two very good operators, they're worth going out and watching."

That operator preference speaks volumes. With several brands available, the Rogues are consistently the go-to machines – proof that comfort, performance and handling make a difference where it counts

THE FINAL VERDICT

Colin's endorsement doesn't come lightly. With 40 years in the business and ownership of just about every mower brand available, he's seen first-hand the strengths and weaknesses across the industry.

"If I had to sum it up: they're stronger, they're more reliable, and they get the job done with less downtime than anything else I've owned. After 40 years in this business, that's saying something."

Would he recommend them? His answer is clear: ***"I'll definitely be buying more!"***

The key reason? Reliability. ***"It's killing it everywhere. We're not having downtime hardly ever with them and we use them pretty hard. You've got guys on them that can smash out twice as much as anyone else, and the other machines were always breaking down – but these ones aren't."***

"Compared to a lot of machines that I've owned over the years, these would have to stand up as probably number one at the moment."

MAKE IT YOUR OWN.

We've got a full range of options and accessories for safety, functionality, performance, comfort, entertainment and just plain good looks. So deck out your Bad Boy Mower right from the start, and mow with even more attitude.

ADVANCED CHUTE SYSTEM

With the advanced chute system's variable stage all-steel shield, you can effectively and accurately control the discharge from your zero-turn mower.

Closing the Advanced Chute System completely prevents discharge into flower beds, driveways and swimming pools.

In high-density areas where flying debris can damage windows, vehicles or even people, keeping the advanced chute at a semi-closed position forces debris down immediately, preventing straight line discharge at speeds of over 320 km/h!

Built for commercial lawn and garden professionals and zero-turn mower homeowners alike.

Plus, the Advanced Chute System also turns your mower into a powerful mulching machine, perfect for autumn leaf cleanup! You can easily control clippings and debris for quicker, easier lawn care.

SCAN TO WATCH HOW IT WORKS

ELECTRIC DECK LIFT

Upgrade to the Bad Boy Electric Deck Lift and redefine the way you approach lawn care as you effortlessly control your mower deck, making each mowing task a breeze.

The Bad Boy Mowers Electric Deck Lift is a cutting-edge feature that revolutionises the mowing experience. With the push of a button, users can effortlessly adjust the cutting deck height, providing unparalleled convenience and precision.

This advanced technology not only saves time and effort but also ensures a uniform and professional-looking cut across various terrain types.

The Electric Deck Lift is seamlessly integrated into Bad Boy Mowers, reflecting their commitment to innovation, durability, and user-friendly design.

Whether tackling a residential lawn or commercial property, this feature enhances productivity and delivers exceptional results with every mow.

REAR MOUNT BASKET

Convenient for carrying yard tools and other personal items.

RAMBLER • MAGNUM • AVENGER • ELITE • MAVERICK • REBEL • ROGUE

TOBY PRICE GOES ROGUE

"We've definitely put it to the test!"

When Aussie motorsport legend Toby Price was first introduced to the Bad Boy Rogue at PFG Australia's Brisbane office, it wasn't a hard sell - he was ready to jump in the seat.

Living on a property with rugged terrain, Toby needed a machine tough enough to handle it and powerful enough to get the job done right. The Bad Boy Rogue ticked all the boxes. Toby's no stranger to serious machinery - he's pushed more than a few to their limits in his racing career. So it's no surprise he's been putting his Rogue through its paces.

"We've definitely put it to the test. It's done some serious hours - 139 to be exact - and it still looks brand new. The paint's not even worn off. It's doing an amazing job!"

So, does Toby actually enjoy mowing - or is it just another excuse to jump on a machine? Truth is, it's a bit of both. He reckons mowing's a whole lot more fun when you're behind the wheel of a beast like the Rogue. These days though, he's not the only one keen to cut a few laps—his dad's hooked too, sneaking in seat time on the farm whenever he gets the chance.

Toby Price and Bad Boy Mowers: the perfect match.

Power. Performance. Attitude.
